Bob

Our eco and human health risk reviewers are engaged in the review. Mike I indicates that we are on track to get you comments by the end of the month.

Mike,

Doug sent us some final changes to the FMC OU6 letter yesterday and Sally and I can live with EPA's latest changes so there is no need to have FMC on today's agenda.

Doug-let me know if EPA will be able to meet the deadline of Oct 30th for sending us comments on FMC's CMS for OU3 and if not, when we can expect those comments.

We have our comments prepared, including our Fish and Wildlife comments, and we'd like to get that letter out soon as well.

Thanks

Bob

Mike

Could we also briefly discuss:

- NWIRP/Northrop Grumman outreach related to "Saladino" study
- Li Tungsten-EPA plans for additional excavation at Lower Parcel C (we will also set up a separate call in the next few days to discuss in more detail at the Bureau director or SC level)
